GOALS & MILESTONES

MANHATTAN DISTRICT TARGETS

ADVANCED

Currently Drilling; Mineralization is still open along strike and at depth. Drilling may have defined a historical resource, or the target is a past producing mine. There is a strong understanding of geology, with a geological model prepared.

DRILL-READY

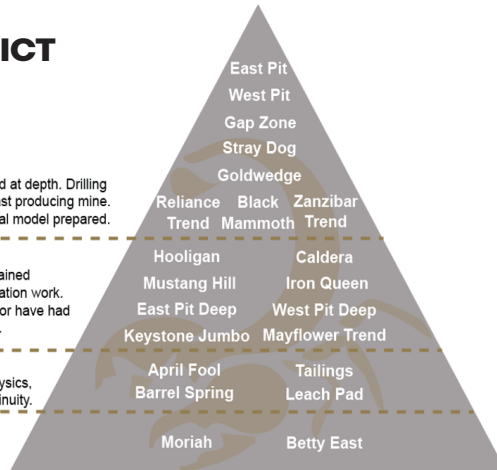

Drill Target; mineralization displays continuity with unconstrained dimensions. Historic data compilations may require confirmation work. Targets may be deep extensions of existing mineralization, or have had preliminary or scout drilling completed, and are prospective.

IDENTIFIED

Mineral Occurrence; geological surveys (soils, grabs, geophysics, etc.) indicate potential mineralization with unconfirmed continuity.

TARGET DEFINITION

Potential Mineral Occurrence; may have geological surveys, historical workings and data.
